

SendaRide's PROVEN SOLUTION

The Institute of Health Improvement has defined three key areas of focus to improve the US Healthcare system known as the **"TRIPLE AIM"**

1

Improving the health of populations

2

Reducing the per capita cost of healthcare

3

Improving the patient experience in quality and satisfaction

THERE IS ONE COMMON ELEMENT THAT IMPACTS ALL THREE GOALS AND THAT IS PROVIDING ACCESS TO CARE.

PROBLEM

In the US more than 7 million people miss medical appointments annually because they don't have access to transportation.

Missed appointments cost healthcare providers **\$150 billion annually** with "no show" rates approaching as high as 30%.

SOLUTION

SendaRide was developed specifically to meet the needs of the healthcare industry.

SENDARIDE CAN BENEFIT BOTH CLINIC AND HOSPITAL SETTINGS BY:

- Improving patient "no-show" rates which generate additional revenue
- Improving operational efficiency, i.e. patient throughput and reduced length of stay, which reduces operating costs
- Easy scheduling by clinical staff
- Improving patient health outcomes by ensuring patients get the care they need, when they need it and in the right setting.
- Improving patient satisfaction by reducing wait times
- Improving quality and satisfaction metrics tied to value based reimbursement models

SENDARIDE IS UNIQUE IN THE HEALTHCARE MARKET DUE TO:

- Its user-friendly technology platform that provides constant GPS monitoring and audio recordings of each ride.
- The use of Care Partners, our drivers, recruited from the healthcare industry, who desire to give back to their community.
- An extensive seven-year Care Partner background check, individual vehicle inspection and an orientation program tailored to healthcare including HIPPA training and required signed BAA agreements
- Concierge door to door service, offering patient assistance in and out of the vehicle and ensuring they arrive at their final destination safely.
