

SAFE TRANSPORTATION TO AND FROM APPOINTMENTS

WHAT IS SENDARIDE?

SendaRide provides transportation for adults, enabling them to get to appointments, run daily errands and attend social events. Rides can be scheduled months in advance or as little as a few hours in advance.

HOW MUCH DOES IT COST?

SendaRide charges a time and distance calculation, similar to a taxi, and are similar to what you would expect to pay for a cab, but we provide you with personal service. You can always get an estimate before booking your ride.

HOW DO I USE IT

Rides are scheduled by either downloading the app from the App Store or by calling 1-800-731-1885. When scheduling a ride indicate the day and time you'd like to be picked up, as well as, the location. Our service will match you with a driver best able to meet your needs.

You will know in advance who is picking you up, what they look like, a picture of their car and license plate and be able to reach the driver by phone or text.

WHAT TO EXPECT

Our drivers are called "Care Partners". Your driver will arrive at the specified pick up location on time and will greet you at the door. He or she will assist you to the car and walk you inside your drop off location to be sure you arrive safely and on time. Your driver will have photo ID and company magnets on their car door so you can identify them.

HOW SAFE IS IT

Your driver has passed a 7 year national and local criminal background investigation, a 7 year driving record search, car inspection, in-person interview and training.

SendaRide provides many security features during your ride. We monitor your ride in real time, track your GPS coordinates and the audio inside the car is recorded.
